

Maps & Diagrams

Before

- Create a maps & diagrams of your house/facility
 - Map out the following:
 - Fire extinguishers
 - First aid equipment
 - Supplies
 - Communication devices
 - Safe meeting places in your neighborhood
 - Emergency shutoff valves
 - Emergency exits
 - Designated evacuation routes

During

- Leverage maps to assist you in responding to the incident

After

- Review maps for any items or routes that need adjustments

***Maps are essential in
successful disaster planning***
