WATER USE

We recommend that residents avoid using the water during these times if possible. Cloudy or discolored water that may result is not harmful. However, residents are advised to run their cold water faucets until the water becomes clear before consuming. Also, please check for clarity before laundering clothes.

HOW YOU CAN PREPARE

- Draw and store water for cooking before your scheduled cleaning day
- Store a large bottle of water in the refrigerator for drinking
- Do laundry and run dishwashers in advance of your scheduled cleaning days
